

# Document Direct – UK 24/7 digital dictation transcription and secretarial service

Users of the Advanced Digital Dictation application will now be able to send dictations directly to the specialist typing team at Document Direct. The development includes live updates from Document Direct to the Advanced Digital Dictation platform, allowing users to monitor the progress of their work.

Furthermore, the completed work can then be returned directly to the users Case Management System if using one of the ALB or Partner for Windows Advanced CMS applications, ensuring everything remains within the same, secure ecosystem.

Martyn Best CEO: "We are delighted to be working on this integration with Advanced and hope that, for our mutual clients, this means we are able to provide an even more streamlined service"

Document Direct offers you a flexible, 24/7 typing and transcription service which allows you to outsource as much or as little of your typing and document production as you wish.

Document Direct is a trusted supplier to over 350 law firms in the UK and Ireland.

Our highly skilled UK-based team work 24/7 to help deliver security compliant and completely confidential transcriptions back to you in as little as an hour.

We are accredited to ISO27001 and ISO 22301 giving you the comfort of

“  
Document Direct is a trusted supplier to over 350 law firms in the UK and Ireland.”

confidentiality and security, supported by vital business continuity. We are also certified with ISO9001 for Quality and, of course, GDPR compliant.

You will benefit from huge improvements in your turnaround times, consistent document quality and a significant reduction in your typing and other related overheads.

Document Direct can save you upwards of 50% on your typing and document production costs.
